ENHANCED STYLE B™ INVERTED SEAM INNERSPRING MATTRESS

DURABILITY - This mattress is built to withstand the rigors of residence hall use. Within the mattress is a low profile 13 gauge high carbon innerspring unit. The perimeter of the mattress contains ultra firm edges to prevent edge collapse and the institutional grade high density (1.8lbs/ft³) foam ensures the bed will not take a set (flatten out).

Our unique inverted lock stitch seam design means there are no tape edge seams to break open, either intentionally or unintentionally. An inverted seam also makes it virtually impossible for body fluids to penetrate the mattress. The mattress is covered with SOFlux OX[®] mattress ticking, a polyurethane coated nylon ticking which is *fluidproof, easily cleanable, bacteria resistant, anti-fungal, and very stain resistant*. Consequently, this mattress contains a 5-year, non-prorated warranty.

FIRE SAFETY – Using Integrity 30[®] fire barrier this specification has passed the most stringent institutional full-scale burn tests, including California Technical Bulletin 129, UL-1895, Boston Fire Department (BFD) IX-11, California Technical Bulletin 603 and the new federal register CPSC 16 CFR Part 1633. We don't risk performance degradation that may be caused by the use of laminated non-woven barriers and tape edge construction.

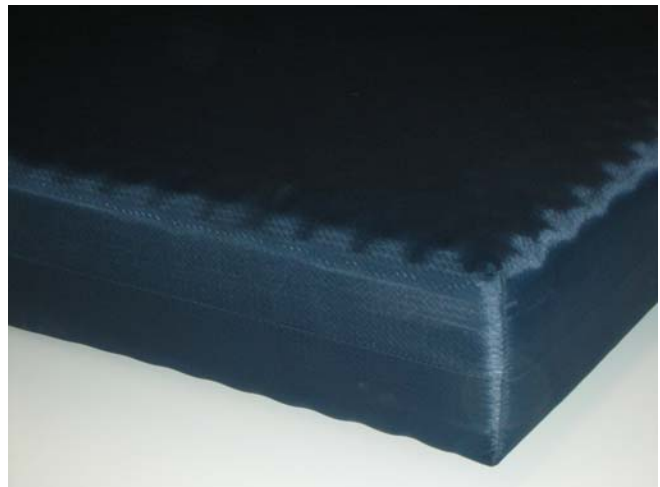

DUAL FIRMNESS - This mattress is plush firm on one side and extra firm on the other to accommodate multiple preferences. The plush firm side contains luxurious, high resilient pressure reduction convoluted foam for maximum surface comfort combined with deep down support. The extra firm side contains extra firm (but not "rock hard") convoluted foam for maximum back support. This combination translates into dramatically increased student comfort and choice.

COMFORT - This mattress contains 2" of premium quality foam each side, resulting in greater comfort. The SOFlux OX[®] cover allows maximum breathability and dramatically less body heat build up. This means increased comfort when compared to conventional vinyl covered mattresses.

This unique mattress is unsurpassed in comfort, performance and durability while also being highly bedbug resistant. It is the best residence hall mattress available on the market today.

Recently bedbugs have made a dramatic comeback in residence halls throughout the United States. Bedbugs love to hide and lay their eggs in the tape edge seams of conventional residence hall mattresses.

We designed our residence hall inverted seam mattress to be the most bedbug resistant in the country. Our mattress contains no tape edge seams for pesky bedbugs to hide. Protect your investment by specifying our inverted seam mattress for any new residence hall mattresses you purchase.

STUDENT'S CHOICE™ MATTRESS COMPARISON CHART

Our state of the art inverted seam mattresses are a technological advancement for the university and institutional market. These bed bug resistant foam encased innerspring mattresses have received many accolades from students and universities for their high level of comfort. The mattress covers are made of a breathable fabric that is fluid proof, anti-bacterial, anti-fungal, very cleanable and durable. The dual firmness feature provides distinct compression levels on each side to accommodate multiple preferences. All specifications contain a fire barrier and have passed the most stringent institutional fire tests such as California Technical Bulletin 129 and 603, Boston Fire Department IX-11, and the new federal CPSC 16 CFR Part 1633.

7.25" x 36" x 80" Enhanced Style B™ Mattress

Our flagship mattress is made from a high carbon 13Ga spring unit and features convoluted high density 1.8lbs/ft³ foam for maximum durability and comfort. This mattress comes with a 5 year *non prorated* warranty.

6" x 36" x 80" Style B Mattress™

Same as above except this low profile mattress does not have a convoluted surface. (5 year *non prorated* warranty)

6" x 36" x 80" Style C Mattress™

This price sensitive mattress is made with lesser quality 1.5lbs/ft³ foam and therefore has a 3 year *non prorated* warranty.

6" x 36" x 80" Student's Choice™ All Foam Mattress

This all foam mattress features **convoluted** high density 1.8lbs/ft³ foam for maximum durability and comfort. (3 year *non prorated* warranty)

OTHER SIZES AND STYLES ARE AVAILABLE UPON REQUEST. LESS THAN TRUCKLOAD QUANTITIES MAY SHIP COMPRESSION PACKED IN A UPS BOX. ADD 5.2% FOR CREDIT CARD ORDERS. PRICES ARE FOB OUR PLANT.

ALL MATTRESSES ARE MADE IN THE USA
